

ROOTED IN JOY, GROWING IN GRACE

2027 STEWARDSHIP PROPORTIONAL GIVING CHART • ST. MARY'S ANNUAL FUND APPEAL

Our stewardship is a living expression of gratitude for the abundant grace God pours into our lives. Giving a financial gift as a proportion of household income is an ancient spiritual discipline rooted in Genesis and Hebrew Scripture. Find your annual income below to view proportionate giving levels and prayerfully reflect on your household's commitment for 2027.

1. Where Are You Rooted?

Locate your estimated annual household income in the left column. Locate your current annual giving level to determine what percentage of your resources you are currently offering.

2. How Will You Grow?

Reflect prayerfully on whether you can take a faithful step upward for 2027—whether that means increasing your pledge by 1%, working toward the 10% biblical tithe, or venturing beyond.

3. Every Pillar Counts

Every household commitment represents an investment of equal spiritual devotion. Together, our shared commitments sustain our common ministry and allow our parish witness to expand in grace.

“Grounded in the conviction that all we possess is entrusted to us in trust and hope... helping our common witness take deeper root and expand in grace.”
