

PRAYER FOR BALANCE

(Recognition) The fullness of God is everywhere in expression, as life of all kinds. Every tree, every bird, every person is the Divine in form. It is Grace, and Love and flowing Abundance, pouring forth naturally all around. This One Spirit is sweet Balance, as the cycle of life and the reception and release of energy. The One Mind leads and directs all in perfect Balance.

(Unification) The Truth I know for myself is that I am one with that One Spirit, made in Its likeness and Its image. Therefore, every attribute of The One already been built into my very beingness. So, I am that Grace and Love, that Abundance and Balance, just as I am.

(Realization) And so, seeing myself through the lens of who I really am, I speak my word affirming that the Balance I am is activated powerfully. It shows up as productive work and joyful rest, as the natural flow and ease of activity in my life. I am guided perfectly and beautifully to Divine Right Action in every situation for the best expression of Balance in my life. I always have more than I need, and I rest and play with ease.

(Thanksgiving) Gratitude flows through my being, as I am overjoyed that I live in beautiful Balance right now.

(Release) I release this Word into the Law with absolute confidence, knowing that it is already done. And so it is.
